# VERBATIM DVDR

Looking to store office presentation but don't know which medium to use? Then simply go for verbatim dvdr. **Verbatim dvdr** is the best medium to store large presentations and huge data. DVD+Recordable or dvdr is a recordable DVD format which is similar to CD-R. In a DVD+R format you can only record data once and then the data becomes permanent on the disc. This means the disc can not be recorded onto a second time.

Whenever we talk about quality, Verbatim is the first name that strikes our mind. Seeing its importance nowadays various companies offer this single time recordable disc but selecting verbatim dvdr over other companies is the right choice. Verbatim dvdr is not only reliable but also outshine other DVDs in term of quality.

[Verbatim dvdr](#) discs can store 4.7GB of video, photos, music or data files in about six minutes. Apart from that the reliability, high-speed recording and broad compatibility makes verbatim dvdr ideal for sharing data and various home videos. Thus it won't be wrong to say that verbatim dvdr is an excellent storage solution for fast backups and archiving.

Nowadays people prefer to [buy verbatim dvdr online](#), as this not only saves time but also significant amount of money. If you are looking for a verbatim dvdr but don't know from where to buy then simply log onto Ketta.com. Ketta is one of the leading verbatim dvdr providers.

Believing in good quality and excellent customer services, Ketta provides a wide range of discs. Therefore, we can say that Ketta is the one stop shop for all your disc needs. Buying [verbatim dvdr](#) from Ketta not only saves your time but also you can obtain huge discounts if you are buying blank cds in bulk. It means choosing Ketta over other online disc providers is the wise choice.

The main highlight of **verbatim dvdr** is that it comes in latest "Advanced AZO" technology from Verbatim. This mean more data can be stored with enhanced quality. In other words consumers will benefit from buying this brand at Ketta.com. Ketta provides this storage medium at an affordable price and also makes sure that you only get the best product.

[Verbatim dvdr](#) comes in two formats which differ in terms of storage capacity. That is verbatim dvdr double layer can store data up to 8.5 GB whereas single layer verbatim dvdr stores data measuring 4.7 GB.

So there is now no need to worry about storing large presentations and your personal music and videos as verbatim dvdr is there for you. Therefore if you want to [buy blank cds in bulk](#) or are looking for more information on **verbatim dvdr** and verbatim DVD please visit [www.ketta.com](http://www.ketta.com).
